

Hello! I'm currently in the U.S. Navy and have been for 6 years. I'm writing about petition 04-160. I look at the petition this way, I'm fighting so that everyone can enjoy the freedoms that everyone has a right to have. I think that the petition denies that right. I would also think that it would help people save time and lives while driving from store to store or cross country. Long at it this way! You would pay to have your kids to go to a private school if you had the money. I know I would. For that money I would expect to get the most of it, other wise I would send them to public school. Get the most for your buck. Right now, I currently oppose NAB's petition 04-160. Thanks for your time. P.S.-True meaning of FREEDOM is only known by those who protect it.
